

Company Overview:

Tsunami Products is committed to providing sustainable water solutions from air using various conventional and renewable energy sources. We are the manufacturer of American made atmospheric water generation products and aspire to help solve water crises around the globe. Our team is comprised of solution oriented professionals from energy, renewables, distribution, project construction and customer-service industries. It is our firm belief that AWG products are a viable solution for a countless number of the world's water crises. Contact us today to learn more about AWG products and start your path towards water independence.

The Tsunami Difference:

Turnkey Installs: Tsunami handles every need from initial design to finished install. Our trained technicians provide top-level service and are equipped to handle multiple applications to ensure water sustainability.

American Made Products: We pride ourselves in manufacturing the highest quality, reliable American made products. This allows for quicker manufacturing, installation and long operating life for our customers.

Crisis Focused: Tsunami understands the value of high quality and easily accessible drinking water in crisis situations. Our core value as a company is to be people-focused and meet immediate needs in times of crisis.

- Military Installations
- Humanitarian Projects
- Hospitals, Schools, Offices
- Crisis Relief Centers
- Fire Stations

How it Works

TSUNAMI
PRODUCTS

Tsunami-50

TSUNAMI - 50 SPECIFICATIONS

Water Production	Potential: 15 US gallons/day at 80°F @ 80% RH (relative humidity)
Internal Water Storage	4.5 US Gallons
Energy Cost	\$0.16/gallon (assuming \$0.10/kW Power cost)
Air filtration	High efficiency, multi-layer poly fiber - washable & Reusable
Water Filtration	Carbon filter & ultra-violet light
Refrigerant	R-134A
Power Requirements	110 V AC, 50/60 Hz, 1 Phase
Power Draw	0.8 to 1.0 kW/ Hr, 10 amps (20 amp breaker)
Dimensions, W x L x H	20.25" x 30.25" x 26.75"
Weight	120 Lbs

Items For Install

- Min. 3' x 3' flat surface
- 110 Volt Outlet - single phase
- Min. 25 Amp breaker
- External Holding Tank
- Shade Covering (Preferred)
- Adequate Air Flow
